# **Catholic Investment Fund**

Fund fact sheet – 31 March 2024

### **Investment objective**

The fund's investment objective is to provide a total return (growth in capital and income) **before** the deduction of any fees, costs or expenses, of inflation (as measured by the consumer price index) plus 5% per year over the long-term (defined as 5 years). There is no guarantee that this will be achieved and you could lose the money you have invested.

#### **Investment policy**

The fund is actively managed and will invest in a broad range of assets, but with an emphasis on equities (between 50% and 85%). The fund can also invest in fixed-interest securities, money-market instruments, cash and near-cash, infrastructure related investments, deposits, gold and property, which may be either liquid or illiquid in nature. No more than 5% of the fund's portfolio will be invested in illiquid assets (investments which may be more difficult to buy or sell quickly at an advantageous time and/or price). The fund adopts an investment policy that is consistent with the faith and teachings of the Catholic Church and is guided by an independent Catholic faith-consistent investment committee to ensure that the investment policy adapts over time and remains relevant and in step with the Catholic Church's teachings.

# **Target investors**

The fund is designed for charities who would like to invest in line with the teachings and mission of the Catholic Church and who are looking for income and/or investment returns above inflation over the long-term and understand that the investment objective may not be achieved, that the value and income of the fund can go down as well as up and that they may get back less than they invest.

# Fund update

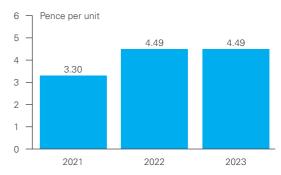

As is often the case most portfolio activity during the quarter was incremental, taking advantage of gains in some of the best-performing stocks to realise profits and reinvest in others which we considered to be better placed to add value in the coming periods. Among the companies in which we reduced the Fund's holdings were microchip makers Nvidia and ASML; and software providers Intuit (maker of QuickBooks accounting software), Adobe and Ansys. However we did exit our positions in Heineken and in personal care brands business Estee Lauder. Proceeds from these 'trims' and outright sales were used to add to several existing holdings and we also introduced two new companies to the portfolio: O'Reilly (US autoparts) and Unite, the UK's largest developer and operator of purpose built student housing.
